Address: Puchong, Malaysia | **My Portfolio Website** : https://my-portfolio-x38x.vercel.app/

Summary

I have over five years of experience in designing, developing, and optimizing web and mobile applications, gained through academic coursework, projects, and self-directed learning. I am proficient in a wide range of programming languages and frameworks, including HTML, CSS, Next.js JavaScript, PHP, Python, Java, Flutter, and React Native. Passionate about software engineering and emerging technologies, I excel at collaborating with teams to deliver high-quality, scalable solutions that enhance user experiences and achieve business objectives.
